- TAL Cloud Tracking

## Integrations

- TAL Cloud Service

## Waterproof Label Protection & Comfort

A plastic tag that can be attached to personal items such as suitcase, briefcase or most heavy clothing.

## Printed QR code

QR code is printed on the tag to enable any Smartphone User to Download the program needed to read the contents of the Tag. The user simply uses their QR reader to download and install the application from the Google Play Store for Android or Apple Store for iPhone.

## Who—When—Where

Whenever the Tag is read by a Smartphone the Smartphone will send a message of Who read the Tag, When was the tag read and Where was the person at the time the tag was read. .

## Integration with EMR and Emergency Data

EMR data is written to the internal NFC chip to provide Emergency Responders quick reference Critical TAL and Essential Care instructions.
